PRODUCT NOTES

PRODUCTION NOTES

The grapes are picked by hand and sorted before crushing. After six days of pre-fermentation cold maceration at 8-10°C, the must undergoes vinification for 12-15 days at controlled temperature. A third of the wine ferments in open vats with punching down. The final assembly is carried out five months after the harvest and the last racking takes place approximately six months later. 2 months in French and American oak barrels.
